Introduction to The Leader in Me and Positive Behavior Interventions and Supports

The positive approach of PBIS in support of The Leader in Me and the 7 Habits of Highly Effective People ensures that our students will be taught the behaviors we expect. They will be rewarded when they succeed, corrected when they make mistakes, always under the overarching ideal that Leadership is doing what is right even when no one is looking.

This manual is for Twin Oaks Parents and families. Its purpose is to explain the school wide positive behavioral expectations, interventions, and supports the PBIS team with staff input, have developed. This is a living document, which means that it will be updated and adjusted as staff sees the need for changes and/or additions to our systems.

For a school wide system to work effectively, it is important that all staff members and our families read and understand this manual of support. Questions can be addressed to your PBIS team.

How Does PBIS Support The Leader in Me?

The Leader in Me addresses the whole child with an emphasis and focus on fostering a strong intrinsic motivation to do what is right. The common language of The Leader in Me helps children learn to take responsibility for their actions and choices, to make more positive choices and to work on all areas of their lives, not just behavior.

PBIS is a process of positive behavioral reinforcement to change behavior that will enable the staff at Twin Oaks to proactively teach and reinforce expectations for student behavior. PBIS is a compliment to The Leader in Me.
What is School-wide PBIS?

Definition

School-wide positive behavior intervention and supports (SW-PBIS) is a system of tools and strategies for defining, teaching, acknowledging appropriate behavior, and correcting inappropriate behavior. It is a framework for creating customized school systems that support student outcomes and academic success. School-wide PBIS focuses on the development and implementation of pro-active procedures and practices to prevent problem behavior for all students and improve school climate.

There are four main elements in SW-PBIS:

- Customized practices to support student behavior, such as defining and teaching appropriate behavior
- Systems of support for educators in the school; such as school-wide behavioral expectations, indicators, and coaching
- Data-based decision making, which is the cornerstone of the behavior problem-solving process
- And, the combination of these to enable school-wide outcomes, which promote social proficiency and academic success.
Multi-Tier Support

School wide means that all staff support appropriate behavior in the classroom and non-classroom (Bathrooms, assemblies, hallways, etc) areas. This support happens along a continuum from Tier 1 instruction and support for all students. Tier 1 support refers to best first instruction for all. Tier 2 supports focus on the smaller group of students who need more instruction and modeling for learning to elicit positive outcomes. Tier 2 support might include additional instruction in one area of behavioral need, participation in social skills groups. Tier 3 support is focused on the few students who require intensive support. Tier 3 supports could include a behavior intervention plan developed by teacher or district’s Behavior Specialist.

Continuum of School Wide Instruction & Positive Behavior Support

An important aspect of PBIS is the understanding that appropriate behavior and social competence is a skill that requires direct instruction just like math and reading. There is no assumption in PBIS that students will learn social behavior automatically or pick it up as they go through life. This critical feature leads to its effectiveness.

The School-wide PBIS Team

The PBIS team is representative of the entire school staff across grade levels, classified staff, Special Education staff, etc. Having a representative team will improve communication and feedback about PBIS programs in the school and should also improve involvement and buy-in throughout the school. Current PBIS Team is comprised of the following members:

Responsibilities of PBIS Team

- Hold PBIS meetings on-site once per month to plan and coordinate school-wide behavior systems. The team is responsible for planning PBIS activities and programs (acknowledgment assemblies, and booster lessons of school rules) and continually monitoring and updating PBIS programs.
- Attending district-wide meetings and trainings to promote the continuing development and maintenance of PBIS programs at your school.
- Present PBIS news at staff meetings to keep staff up to date with school PBIS programs and receive input and feedback from staff.
- The PBIS Team Leader is responsible for facilitating monthly PBIS meetings on-site and being the liaison with district PBIS efforts through PBIS District Leadership meetings held every other month.

The following pages describe the School-wide PBIS plans and programs for this year. It is expected that all school staff and parents/families will be active participants in our plan for success.
Behavior Expectations

**Behavioral expectations:** Twin Oaks Elementary School has four behavioral expectations for all Students that support The 7 Habits of Highly Effective People in maintaining a safe and respectful environment.

**Be Respectful ~ Be Responsible ~ Be Safe ~ Be Kind**
Are you LEADing?

**Behavior matrix:** a matrix with settings, events, or classroom routines along the top with the behavioral expectations in the left column. Each matrix junction (box) contains the behavior indicators, or what the behavior expectation looks like in that particular setting or event.

**Behavior indicators:** what the behavioral expectations look like in a particular school-wide setting, event, or classroom routine.

**Procedures:** specific ways for students to complete tasks. An example of this is how to behave responsibly during transitions: 1. Clean up your area, 2. Stand and push in your chair, 3. Eyes are on me.

**Why do we have School-Wide Behavior Expectations?**

Having a few simple, positively stated rules facilitates the teaching of behavioral expectations across school settings because students will be learning through the same language. By focusing on 4 simple rules it is easier for students to remember. It is also important for staff because instruction focusing on a few simple rules will improve teaching and consistency across staff through the use of a common language.

Positively stated rules are important, because research has shown that recognizing students for following the rules is even more important than catching them breaking the rules. By stating rules positively, the hope is that staff will be more likely to use the rules to catch students engaging in the appropriate behavior.

**Teaching Expectations and Routines**

One of the most important reasons to teach behavioral expectations and routines across settings is that so all students know what is expected by all adults on campus. This will improve consistency across staff in holding students accountable for their behavior.

During the first week of school, we will focus on teaching the school-wide rules, behavioral expectations, and routines to all students across all settings in the school. Our success depends on the participation and support from the entire staff.

**What are Routines?**

Routines are the procedures and processes that students are expected to follow to keep things running smoothly and prevent problems. Examples of routines include: entering the cafeteria, the lunch line process, the dismissal process for classes from lunch, process for sharpening your pencil in class, etc. Choosing routines is a thoughtful process, since some routines can inadvertently set up students to engage in misbehavior. Routines are to be taught and reinforced during the first week of school so that everyone in the school is following the same set of procedures.

(Three positive examples for every one negative example. Be sure to end with two positive examples.) For example, it should sound like this:

- Is it okay to line up quickly and quietly?
- Is it okay to hold the door for others?
- Is it okay to walk across the playground?
- Is it okay to Wait Quietly for directions?

(You can do unison response or individual turns or a combination thereof. It’s important to use your professional judgment about the level of difficulty and differentiation of the questions to gain a sense of student understanding.)

Demonstrate and Role Play:

Demonstrations: I am going to show you some ways of LEADing during a Fire Drill. I want you to watch and tell if I am being Respectful, Responsible, Safe, or Kind. Then you will get a turn to demonstrate as well (students only demonstrate appropriate behavior).

Role Plays: Inappropriate and irresponsible Fire Drill behavior; appropriate and responsible Fire Drill Behavior.

Assignments: Review the key behaviors periodically throughout the year. It is not necessary to list every behavior or role-play each situation every time. Use your professional judgment in deciding how many examples are covered in one sitting.
Lesson: Hallways

Skill and Critical Behavior Indicator: How to be responsible in the hallway

“Today we are going to talk about ways to be safe in the hallway. What are some ways to LEAD in the Hallway? Shape student responses into observable behaviors around Respectful, Responsible, Safe, Kind(e.g. if they say to be nice, ask for examples of being nice that equate to observable skills such as asking someone to play, taking turns…)

System for Acknowledging Behavior

At the individual student level:
- Adults in the building acknowledge appropriate student behavior with Habit Grams and/or positive, specific verbal praise

At the classroom level:
- Students can earn habit grams in any classroom.
- Rewards for habit grams will be in the student’s home classroom.
- Classroom teachers will decide how and when the behaviors are recognized.

At the grade level:
- Grade level teams will work together on acknowledgement systems.

At the school level:
- At the monthly school-wide PBIS assembly, ten (10) Habit Grams will be drawn from the Habit Gram Bin
- The ten (10) students whose Habit Grams are drawn from the box will receive the Timberwolf Award

Acknowledgment Guidelines

It is not enough just to teach expected behavior, we also need to regularly recognize and reward students for engaging in appropriate behavior. Research on effective teaching has found that teachers should engage in a rate of 4 positive interactions with students to every 1 negative interaction (4:1 ratio). The goal of an acknowledgment system is to increase the number of positive interactions that all school staff have with students.

At Twin Oaks Elementary School we use The Leader in Me and PBIS to acknowledge students for appropriate behavior. When recognizing students with a Habit Gram, it is important to identify specifically what behavior the student engaged in and link it to the appropriate school rule.

Adult behavior when providing acknowledgement is:
- Positive
- Specific, clear
- Applied immediately
- Teacher initiated
- Focused on improvement

Examples of strategies to acknowledge behavior:

<table>
<thead>
<tr>
<th>Free &amp; Frequent</th>
<th>Intermittent</th>
<th>Strong &amp; Long Term</th>

System for Correcting Behavior

Consistent and fair discipline procedures are crucial to a successful consequence system in all schools. It is important that we are respectful of students in our disciplinary responses. Consequences should focus on teaching, remediation, or logical consequences as much as possible (i.e. if a student breaks a window they work it off in restitution, etc.). In providing consequences we also want to be mindful of the instructional time students are missing with the goal of minimizing the amount of instructional time missed.

In order to maximize student instructional time staff are encouraged to deal with problem behavior in their classroom as much as possible. This requires that staff develop a clear discipline plan, teach expectations and routines, provide incentives for positive behavior, and establish clear classroom responses to problem behavior for their classroom. If teachers are experiencing pervasive problem behavior in their classroom, they are advised to seek assistance or additional consultation by contacting the principal.

Active Supervision Guidelines

Active Supervision is a monitoring procedure that uses three components: moving, scanning and interacting frequently.

Moving Effectively
- Constantly roam throughout the zone
- Make presence known and obvious
- Proximity to all students
- More frequent proximity to students requiring extra support
- Randomized
- Targets Problem Areas

Scanning Effectively
- All students observed on a regular basis
- Make eye contact with students in more distant locations of the room
- Look and listen for signs of a problem

Interacting Frequently
- Positive contacts
- Friendly, helpful, open demeanor
- Proactive, non-contingent reinforcement
- High rate of delivery
- Positive reinforcement
- Immediate and contingent on behavior
- Delivered at high rates and consistently
